

FEDERATION OF EGYPTIAN INDUSTRIES
Environmental Compliance Office

The Environmental Compliance Office is taking care of business... and the environment

Reduce your enterprise's environmental impact while attaining higher profits!

If your business matches all the criteria below:

- a member of the Federation of Egyptian Industries
- a small- and medium-size enterprise
- a private sector enterprise

You are eligible to benefit from ECO's technical and financial support.

Below is a list of provided services:

- Environmental Impact Assessment (EIA)
- Environmental Management System (EMS)
- Assessment of facilities and enterprises for Cleaner Production (CP) opportunities and Good Housekeeping (which finds low- or no-cost solutions)
- Assistance in implementing Best Available Technologies (BAT) and selecting a supplier
- Executive, managerial and technical staff trainings in Needs Assessment
- Consultancy services to help qualified enterprises access soft loans, and assistance in the application procedure
- Assistance to the industrial sector in implementing energy efficiency projects
- Detailed energy audits in different sectors within FEI
- Total Energy Management and Monitoring System Implementation
- Preparation of EE (Energy Efficiency) Project Documents (PDD) including necessary feasibility studies and any relevant assessments; Preparation of all essential certifications, especially in the field of Clean Development Mechanism (CDM)
- Trainings in good hygienic practices (GHP) for food industries
- Trainings in good manufacturing practices (GMP) for food industries
- Hazard analysis and critical control points (HACCP) in food industries

ECO offers soft loans up to LE 3 million to fund industrial instruments used in cleaner production applications. The loans are payable in installments at an annual 2.5% interest rate over a period of five years, including a one-year grace period.
